One would imagine that the Union above all others would want to see as much as could be of the present chief commodity of the levee removed as soon as possible.
It was to be expected. The Union is beginning to cast slurs on and to belittle the project to improve the levee. But that simply means the success of the undertaking.
Miss Annie Kirkpatrick has returned from an official visit to the county infirmary, which she inspected

Now the Union had better be careful how it handles that levee improvement. It has had time enough to consider where it ought to be, and it should guard itself that it does not get on the wrong side of this in all other matters of public concern in which it has taken issue.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

There Are Honest And Dishonest Refrigerators

Just as there are honest and dishonest men and women. On the refrigerator depends most of one's home comfort—the pleasure of eating, lightening of kitchen bothers, less cleaning to do, saving of mental worry, time to do things—all this and more, too, comes from the honest refrigerator—the tricky and "made to sell" sorts beware of.

THE LEONARD "CLEANABLE"

Marks the highest point yet made in refrigerator making—15 patents cover its construction—is dependable in every way and helpful—the pride of the housewife. We'd like to show it to every lady in town.
